

## D-DUBBS NINJA YOUTUBE TECHNIQUE

Ok Guys, you should know by now that I don't like to mess around and waste yours and my time. I want you making money straight away without the gimmicks.

What I am telling you below works a treat – and really I should be turning this into a clickbank ebook and making some moola. Honestly though, I cant be assed! I am doing well enough with this method on its own!

So very briefly, here is how I am using youtube to make some INSTANT cash.

Go to [www.youtube.com](http://www.youtube.com)

1. Type in anything which you think people maybe searching for. It's a huge world out there folks! I used Michael Jordan in my example
2. Sort the vids from highest to lowest hits
3. Click on a video which is MORE than 10 seconds long
4. Watch the video and make sure the user doesn't have any website links in his description box or any offers in his annotation box (pop up box in his video)
5. Make sure the video is getting at LEAST 3,000 hits per day. There is literally an unlimited amount of these videos at youtube.
6. Sometimes I have a higher success rate if the user has only a few videos.
7. Contact the video owner and say something along the lines of:

*Hi .....*

*I have just watched your video ..... And I think its great.*

*My name is ..... And I am an internet marketer.*

*I noticed that you don't have a link in your description box and I was wondering if I could place my website link there in return for some \$\$\$\$. It will literally take 30 seconds of your time.*

*If you want to do this, let me know and I will transfer you some \$\$\$ instantly via paypal.*

*I look forward to hearing from you  
.....*

8. Its very important that you reference paypal, and also add 'Important' in the subject box
9. Wait until they get back to you guys, and offer them some cash to buy outright, or rent their space. I never pay more than \$30 per month.
10. It's a numbers game guys.

It really is that simple!!! Once you get the link in the vid it will be there forever, always earning you money!

But remember this is only a tiny, incy wincy little part of internet marketing and it is designed to get you up and running to make some decent cash flow fast. Nothing more.

If you are truly serious about making it in the internet marketing world and you want to get even more killer information on this youtube technique (I will show you a live example of a video which I just bought with exact phrasing in the description box and annotation box) then you need to visit my site at:
